

技术参数 Specification

| 端口标准 Port Standards       | N-K<br>内螺纹Internal Thread    |
|---------------------------|------------------------------|
| 最大电流 Max Current          | 10 A                         |
| 最大电压 Max Voltage          | 3.5 KV                       |
| 工作频率 Working Frequency    | 0~7.5 GHz                    |
| 插损 Insertion Loss         | ≤0.6 dB                      |
| 端口阻抗 Port Impedance       | 50±3 Ω                       |
| 漏气率 Leakage Rate          | ≤5×10 <sup>-13</sup> Pa·m³/s |
| 耐温 Temperature Resistance | -40℃~300℃                    |
| 耐气压 Pressure Tolerance    | 10 Bar                       |
| 材料 Material               | 可伐/不锈钢<br>Kovar/Steel        |

|                                                                                                                           |                                                                         |                                                                                                                                                                                           |
